

LCS-K602

Compact KVM switches

Longshine offers Home and SOHO users the 2-port USB/VGA compact KVM with Audio to satisfy their USB & DVI connection demand. Longshines K602, 2-port USB/VGA switch with Audio, allows you to link 2 computers via USB & VGA connections to one USB console (USB Keyboard & USB mouse). K602 supports Audio function to allow you to listen to the Audio output from the computer controlled through speaker or input the audio to computers controlled through microphone. The Auto Scan function is available to K602 for the demand of monitoring. K602 are fully compatible with various OS like Windows, Linux, Mac, and Sun Micro

Features:

- ◆ Controls 2 computers from a single console (Keyboard/Mouse) over USB connection.
- ◆ Supports Window 98SE/ME/2000/XP/Vista/2003 server, Mac, and Linux
- ◆ Supports Audio function.
- ◆ Emulates a keyboard on each PC to allow your computers to boot normally without a keyboard error.
- ◆ Supports hot-swap. All devices connected to the KVM can be added or removed at any time, without shutting the unit down.
- ◆ Supports USB keyboard Hot-Key Switch and push buttons for easy operation.
- ◆ Supports Auto-Scan function to alternate video between both computers in preset intervals.
- ◆ Supports LED display for PC and audio status monitoring.
- ◆ Supports VGA resolutions up to 2048x1536 @ 85HZ.
- ◆ Supports Plug and Play.
- ◆ Self powered through USB connection.
